PROFESSIONAL SUMMARY

I am a motivated and focused **MERN Stack Developer** with practical experience building full-stack web applications using **MongoDB, Express.js, React.js, and Node.js**. I know how to create **RESTful APIs**, use **JWT** for secure logins, and build interactive user interfaces. I'm good at **debugging, solving problems**, and learning new tools quickly. I always aim to write clean, easy-to-manage code and build apps that work well for users. I'm open to moving for work and excited to be part of a team where I can grow and contribute.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap
- **Backend:** Node.js, Express.js,
- **Databases:** MongoDB (mongoose)
- **Authentication:** JWT, express-session
- **Templating:** EJS, HBS
- **Tools & Libraries:** Git, GitHub, Postman, Nodemailer, html-to-pdf, AJAX,redux

Soft Skills: Problem Solving, Creative Thinking, Fast Learning, Self-Learning, Teamwork, Communication

PROJECTS

E-Commerce Backend | Node.js, Express.js, MongoDB, AJAX, Git

- Developed a secure backend with session-based authentication using express-session and MongoDB.
- Enabled dynamic cart updates using AJAX (without page reload).
- Achieved modular, maintainable code with route-based architecture and middleware for access control.

Concert Ticket Booking | React.js, Express.js, MongoDB, JWT, Git

- Developed full-stack web app with React UI and Express backend.
- Built secure user authentication with JWT, and admin panel with route protection.
- Used middleware for token validation and implemented advanced error handling.
- Deployed app and integrated Nodemailer for ticket confirmation emails.

EDUCATION
